ENGINEERED FOR SUPERIOR PRODUCT PERFORMANCE

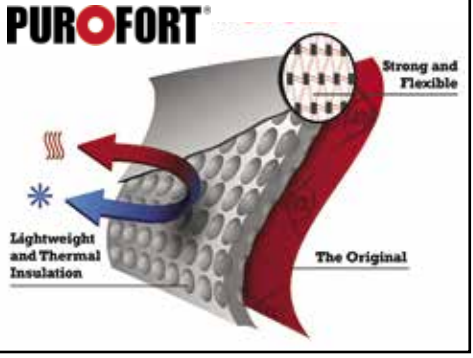
PUROFORT® is the unique Dunlop® material with millions of evenly distributed air pockets making it light-weight and thermally insulating plus a cross-linked structure that provides flexibility and strength. The material is created using a special recipe at the time of manufacture, giving your Purofort® boots a "born on" date. This gives Purofort® boots their remarkable properties.



NOTE: Our boots can be ordered and worn by men or women. There is a two size difference between men's and women's sizes. A woman ordering a boot should order two sizes smaller than her regular size. Example: women's size 9 would order men's size 7.

DuraPro® Boots

- Larger circumference at the top makes it quick and easy to pull the boot on.
- Inner liner allows for increased flexibility and subtle feel at the calf.
- Conformance information molded in sidewall for easy identification.
- Wider metatarsal design and comfort ankle for all-day comfort.
- Honeycomb design molded inside the heel to reduce impact when walking.
- Ergonomically designed footbed to provide better underfoot support.

DUNLOP PROTECTIVE FOOTWEAR

Plastic Knife Scabbards

Removable pouch front for easy cleaning!

- Seamless molded white polyethylene construction.
- Notches keep knives from slipping out when you bend over.

Pouch front slips out of scabbard frame for easy cleaning.

Angled flange keeps knives nestled close to scabbard and safely out of the way.

The extended scabbard neck allows knives to hang at a lower, more comfortable grasping distance.
