**KOCH** SUPPLIES

# Bunzl Processor Division . . . Over 140 Years of the Right People, Right Products and Right Prices

Bunzl Processor Division is a leading supplier of the food processing industry. The acquisition of Koch Supplies, Packers Engineering & Equipment and Enterprise allowed us to combine and expand our product offerings, warehousing, distribution expertise and buying power – giving our customers a high level of quality and service. We provide

an unparalleled ability to service national platforms; as well as multi-plant, single-plant, small shops and game processors.

## A Renowned History

Koch Supplies is one of the oldest businesses in Kansas City, establishing its roots as Koch Butcher Supply Company over 140 years ago. In fact, the grandchildren of people who did business with Koch Supplies during the World War II era are now running many of their family's businesses and are some of our best customers. Many of the associates at Bunzl Processor Division/Koch Supplies have tenure of over 20 years, with their relatives and children working alongside them.

In 2001, Koch Supplies became a proud part of Bunzl Processor Division – a leader in the food processing and food packaging industries. Bunzl Processor Division offers more than 35,000 different supply items and 14 distribution centers serving Central and North America, including the Caribbean

and Mexico. But even though we have grown in size and scope, we continue the tradition of outstanding customer service that our customers have come to expect of us over the years, while ever expanding our product lines to fit our customers' needs.

## Why Buy From Bunzl Processor Division?

## North<sup>®</sup> Nitri-Knit<sup>™</sup> Insulated Supported Nitrile Coated Gloves

High performance supported nitrile gloves, excellent protection against solvents, caustics and animal fats.

- Complies with USDA and FDA regulations, 21 CFR, for use in food processing.
- Gloves will not swell, sag or weaken from fat absorption.
- Nitrile offers superior mechanical strength and outperforms supported natural rubber, neoprene and vinyl gloves when exposed to solvent, caustics and animal fats.
- True dip coated glove has a permanent bond of nitrile to inner-liner; won't peel apart like glued-in liners.
- Hand portion is treated with a permanent anti-bacterial and anti-mildew agent.
- Insulated versions recommended for temperatures from -10 °F to 300 °F (-23 °C to 149 °C).
- Pebble textured for added grip on wet or dry surfaces.

Pebbled grip finish.

### HOW TO CALCULATE REPLACEMENT CUTTING BOARDS

1. Measure length and width in inches.
2. Multiply length x width for total square inches.
3. Divide total square inches by 144.
4. Round calculation up to the nearest foot.
5. Take that number x price per square foot.

**L x W = Total Square Inches**

#### Example:

1. Board desired is 13 inches W x 76 inches L.
2. 13 inches x 76 inches = 988 square feet.
3. 988 divided by 144 = 6.86.
4. Round 6.86 up to nearest foot = 7.
5. Total price = 7 x price of board per square foot.

**We recommend boards no larger than 18 inches W x 5 feet L, removable for cleaning by a single worker.**

## Sanatec® Poly Cutting Board Table Tops

An economical alternative to wood surfaces.

- Made of sanitary polyethylene with a reversible slip-resistant pebble finish that won't dull knives.
- Surface will not absorb odors – clean with soap and water.
- Select from four thicknesses, sold per square foot.

**CUSTOM CUT to any size or shape to fit your table!**
